

CustomEyes

Large print books for
children and young people

“One of the best things
for Megan has been
getting CustomEyes®
large print books, and
finally being able
to read the stories
other children enjoy.”

Ellen, mum to Megan

The CustomEyes® service produces large print books for children and young people with vision impairments all over the United Kingdom.

Each book can be printed in the font, font size, spacing and paper colour needed and can be glue or spiral bound.

We have over 4000 large print books available, including fiction, non-fiction and educational textbooks.

We also produce standard large print books for public and school libraries.

**We add new books every week. Find out more on

“My son is loving his new books and it's nice to see him reading by himself and not struggling to use a magnifier. His reading at school has improved as well and also his confidence when reading. So thank you very much.”

Mum, Claire

“From James' point of view he loves to have the same choice of titles as his friends which without CustomEyes he cannot access. Also, it's great that the books are accessible to James at the shelf price.”

Lesley, mum to James.

Guide Dogs' children and young people's services include the full range of services previously provided by our sister organisation, Blind Children UK.
